

TOPSY-TURVY CHIEF JUDGES

By Manuel P. Asensio

1 1. This is a brief introduction to an investigative report titled *Topsy-Turvy*
2 *Chief Judges* that is based on an investigation of New York Chief Judge Janet
3 DiFiore's conduct while engaged in defending the of a New York County Family
4 Court Magistrate, Adetokunbo O. Fasanya against me. I authored an article
5 describing who I am and how I became involved with the chief judge titled *Origins*
6 *of Topsy-Turvy Chief Judges*.

7
8 2. The chief judge's illegal conduct begins at the trial level in the court
9 room. Chief Judge DiFiore is responsible for the special training trial judges
10 receive at the New York Judicial Institute on how to deny parents due process.
11 This is a necessary part of a scheme used to deny parenting rights in New
12 York. Americans do not tolerate government denial of their due process rights or
13 control of their private lives. It rightfully generates enormous anger. As a result,
14 the chief judge is must deploy a specially trained armed family court police force
15 to suppress parental opposition of these type of extreme political ideology. The
16 second level of the chief judge's illegal conduct is protecting the corrupt judging
17 by denying citizens their due process within that state's appeal courts.

18
19 3. Parental rights and due process are a US citizen's two most protected rights.
20 New York's chief judge denies its citizens these two rights within the state. The
21 federal judges have determined to allow the states to operate domestic relations
22 system without federal court intervention. Blameless children cannot identify
23 corrupt judging. Without state or federal remedy parents are reduced to helpless
24 victims the chief judge's use of a justice system to commit fraud.

25
26 4. The authority of chief judges over parents and children has never been
27 investigated based on chief judge's private conduct and laws that apply to their

1 conduct. Why? Because it is concealed and illegal and governors, attorney
2 generals and the legislatures have not been forced to investigate. As a result, the
3 chief judge's illegal conduct has never been report. It is organized corrupt judging
4 as a cover for government interference with children's religious and political
5 beliefs and parental freedom.

6
7 5. The chief judge's illegal conduct in defending Fasanya revealed the
8 concealed acts she performs while administrating the state's parenting rights
9 system. Parental authority belongs to parents not the state under all but the most
10 extreme cases. Chief Judge DiFiore's illegal corrupt judging system supplants
11 parental authority with political power and political ideology. This requires
12 extraordinary levels of illegal concealed unauthorized conduct by the chief judge.

13
14 6. Protecting and concealing this outrageous corrupt judging system is
15 expensive. This is Chief Judge DiFiore most serious illegal activity. The chief
16 judge does not pay publicists or lobbyists. She uses lawyers at no cost to her but
17 great cost to free society. All this is done to enforce Chief Judge DiFiore's political
18 ideology on children. This is utterly intolerable in any justice system and it exists
19 right here in America. We must inform each other to end this conduct on
20 American Soil.
